Re: **Dispute Regarding**

Dear Ms. Holt:

I am reaching out regarding your January 10, 2017, email to Bradley Doyle regarding the IDA property certification.

Over the last few weeks Mr. Doyle was able to gather the requested information. Windstream has a new fiber fed remote on the south end of the property near the City water tower. The distance from the remote point to the far northern point of the park is approximately 3,200 feet.

Windstream has the capability to provide fiber to any of the proposed business. These services would be up to 1gig services on fiber cable and depending on the distance from the remote Windstream could provide between 25mg to 100mg on copper wire.

At this point we cannot guarantee a commitment for broadband service to the community, however, we are interested in learning more about the permitting process to provide these services, and are always interested in exploring new opportunities.

If you have any questions for concerns, please feel free to contact me via phone or email.

Sincerely,

A handwritten signature in black ink that reads "James C. Lloyd". The signature is written in a cursive, flowing style.
