MISSOURI DEPARTMENT OF NATURAL RESOURCES STATE HISTORIC PRESERVATION OFFICE

SECTION 106 PROJECT INFORMATION FORM

Submission of a completed Project Information Form with adequate information and attachments constitutes a request for review pursuant to Section 106 of the National Historic Preservation Act of 1966 (as amended). We reserve the right to request more information. Please refer to the CHECKLIST on Page 2 to ensure that all basic information relevant to the project has been included. For further information, refer to our Web site at: http://www.dnr.state.mo.us/shpo and follow the links to Section 106 Review.

refer to our view site at. http://www.dim.state.mo.ds/shipo	oo review.
NOTE: Section 106 regulations provide for a 30-day response time by the Missouri State His	storic Preservation Office from the date of receipt.

Mr. Jim Gray, Principal Chief Dr. Andrea A. Hunter, Tribal Historic Preservation Officer Osage Nation P.O. box 779 Pawhuska, OK 74056

Dear Chief Gray and Dr. Hunter:

Attached is a packet for your review regarding the proposed development of a tract within the Partnership Industrial Center in Springfield, Missouri. Please contact me at (417) 864-1844 or at vmorgan@springfieldmo.gov if you have any questions or need additional information.

Thank you for your review and we would appreciate a response within 30 days.

Vern Morgan

Grants Administrator

CC: Mary Lilly Smith, Economic Development Director

Ms. Rebecca Prater Missouri Department of Natural Resources State Historic Preservation Office Attn: Section 106 review P.O. Box 176 Jefferson City, MO 65102-0176

Dear Rebecca:

Enclosed is a request for consultation regarding a Section 106 review of the impact of future development of a tract in the Partnership Industrial Center in Springfield, owned by the Springfield Business Development Corporation, a partnership between the City, City Utilities, and Chamber of Commerce. The reason for the review is that the site is proposed for inclusion in the Missouri Certified Sites Program administered by the Missouri Department of Economic Development.

The setting is a rural area on the fringe of Springfield that has traditionally used for farming and pasture. The Springfield-Branson National Airport is located just north of the site known as "Site 12" and has influenced the land use for the past several years, including establishment of the industrial center. In fact, the airport commissioned a Cultural Resources Survey in 2000 in order to assess the cultural resources near a proposed radar facility known as an "ASR 11." This equipment is located just across Highway EE (Division Street) from Site 12. For this reason, the survey was relied on for our determination of "No Adverse Impact on Historic Properties." This determination was made by the SMSU Center for Archeological Research but unfortunately, SHPO did not comment within the 30 days provided so we do not know if SHPO concurred (see attached SHPO letter dated June 26, 2000). Although this report was done for a different purpose than assessing Site 12, we assumed that they would have provided information if there was reason to believe there were important cultural resources on Site 12 since it is just across the street.

We are also sending this request for consultation to Chief Jim Gray and Dr. Andrea A. Hunter of the Osage Nation Tribe since they have indicated an interest in proposals for developing previously undisturbed land.

Included in this request are:

- Section 106 Project Information Form
- Quad Map
- **Photos**
- Photo Key
- Various other available maps
