

Industrial Park
1700 S. Wommack St.
Bolivar, MO

Empire District Industries has fiber optic cables approximately 2500' to the East of the property on the East side of Highway 13. Empire District Industries sells local loop fiber inside of the Bolivar city limits and would need to connect to Sho-me Technologies for Internet or transport to Springfield. Empire District Industries can provide 10MB to 1GB of transport but it would be necessary to purchase the same connection from Sho-me Technologies.
